

PROPOSED ROUTES

**ROCKDALE TO WEST MIDDLETON
NEW 345 KV TRANSMISSION LINE**

- PROPOSED ROUTES**
- Proposed Routes - Active
 - Previously Studied Corridors - Dismissed
As of May 15, 2006
 - Existing Substations

The information presented in this map is advisory and is intended for reference purposes only. American Transmission Company owned and operated facility locations are approximate.

In the route development process, new information may require us to add new route segments to our map or reconsider route segments that had been reduced in priority earlier. For this reason, we encourage all landowners to follow developments on the project through completion of the regulatory review process, anticipated in 2008.

This map is current as of 5/15/2006.
