

**EQB to develop Standards and Criteria**

**Minn. Stat. §116C.99!**

The standards and criteria must include:

- (1) recommendations for setbacks or buffers for mining operation and processing, including:
  - (i) any residence or residential zoning district boundary;
  - (ii) any property line or right-of-way line of any existing or proposed street or highway;
  - (iii) ordinary high water levels of public waters;
  - (iv) bluffs;
  - (v) designated trout streams, Class 2A water as designated in the rules of the Pollution Control Agency, or any perennially flowing tributary of a designated trout stream or Class 2A water;
  - (vi) calcareous fens;
  - (vii) wellhead protection areas as defined in section 103I.005;
  - (viii) critical natural habitat acquired by the commissioner of natural resources under section 84.944; and
  - (ix) a natural resource easement paid wholly or in part by public funds;
- (2) standards for hours of operation;
- (3) groundwater and surface water quality and quantity monitoring and mitigation plan requirements, including:
  - (i) applicable groundwater and surface water appropriation permit requirements;
  - (ii) well sealing requirements;
  - (iii) annual submission of monitoring well data; and
  - (iv) storm water runoff rate limits not to exceed two-, ten-, and 100-year storm events;
- (4) air monitoring and data submission requirements;
- (5) dust control requirements;
- (6) noise testing and mitigation plan requirements;
- (7) blast monitoring plan requirements;
- (8) lighting requirements;
- (9) inspection requirements;
- (10) containment requirements for silica sand in temporary storage to protect air and water quality;
- (11) containment requirements for chemicals used in processing;
- (12) financial assurance requirements;
- (13) road and bridge impacts and requirements; and
- (14) reclamation plan requirements as required under the rules adopted by the commissioner of natural resources.
