ITC Midwest Transmission Project - Information Request #7

Docket Number: PUC Docket No.: ET6675/CN-12-1053 Request Date: March 5, 2014
OAH Docket No.: 60-2500-30782

Requested From: Lisa Agrimonti, attorney for ITC Midwest

Party Requesting Information: Carol A. Overland for No CapX2020 and CETF

If you feel your responses are trade secret or privileged, please indicate this on your response.

Request No.	ITC Transmission Project
-------------	---------------------------------

7. Per the application, p. 25, and elsewhere:

The new 345 kV transmission equipment necessary for the Project is anticipated to include one additional 345 kV bay using one position, and a future bay position to allow for three future connections.

- A. What “three future connections” are being planned? 345 kV or other?
- B. Identify the future projects that are to be connected to these “three future connections” referred to in the application.
- C. What other substations expansions or constructions are associated with these “three future connections?”
- D. Provide studies (MTEP or otherwise) that provide basis for this plan.
- E. Identify cost for provision of these “three future connections” and cost recovery scheme.

These requests are continuing, and if new or additional information is discovered, please supplement your responses as soon as possible.

Electronic format preferred, via email or CD.
