Dear Ms. Overland,

We are writing to partially respond to your Freedom of Information Act (FOIA) request dated December 1, 2014 and received by the U.S. Fish and Wildlife Service (FWS) Midwest Region (3) FOIA Office on December 2, 2014 and clarified on February 9, 2015, in which you requested information:

“1) PERTAINING TO THE GETTY WIND PROJECT AND BLACK OAK WIND PROJECT ONLY:

- All records of the Applicant’s consultation with USFWS, comments offered by USFWS regarding the Black Oak and Getty Wind projects.
- USFWS documentation of eagles and other avian species birds protected by the Bald and Golden Eagle Protection Act and the Migratory Bird Treaty Act in the Black Oak and Getty Wind project area, both within the footprint and within a five mile radius. (Maps below are from Avian Study for the project. There is an eagle nest acknowledged by Applicants, represented by red dot in map below on right, and turbines are planned in flight path, notably between the Padua WMA and Trisko WMA. There are 13 turbines within 2 miles of this nest. Other birds in the area include trumpeter swans, loons, etc.).
- Take Permit applications submitted regarding the Getty Wind Project and Black Oak Wind Project, and if none, whether Take Permit will be required.

2) INFORMATION REGARDING HABITAT CONSTRUCTION AND RESTORATION BY USFWS IN THIS SPECIFIC AREA.

- Please provide any and all information USFWS has regarding USFWS habitat work just north of the Padua WMA, and south of Co. Rd. 28, on property owned by the Jennissons. A member of Residents of Getty and Raymond Townships, Barbara Jennisson, notes that USFWS did extensive rehabilitation work building ponds on their land in 1998, above the Padua WMA, and south of Co. Rd. 28, the brown line on the north edge of Section 19.

This is an area where birds congregate in great numbers, yet this area has not been delineated on any of the wind projects' maps. Further to the northeast, there is another bald eagle nest, also not noted on the project maps. We request this USFWS information regarding its restoration work to enter into the PUC's docket for these two projects."

We have enclosed eight digital files consisting of 19 pages, which are being released to you in their entirety.

For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of FOIA. See [5 U.S.C. 552\(c\)](#). This response is limited to those records that are subject to the requirements of FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

The 2007 FOIA amendments created the Office of Government Information Services (OGIS) to offer mediation services to resolve disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. Using OGIS services does not affect your right to pursue litigation. You may contact OGIS in any of the following ways:
