Rich,

Here is the Black Oak/Getty data. I already input the information into the model but would like to discuss the meaning of the numbers a little more. I will be in Texas next week but should be able to exchange e-mails if you have any questions. Otherwise my cell number is 612 247 5218.

Thanks,
Scott

Hi Scott,

As we discussed in the recent Black Oak/Getty Wind conference call, I am hoping you would be willing to send us your avian survey data and we will send you the model we have been using to approximate the number of bald eagles that could be take by a given project.

Mags - Could you please provide Scott with the model we have been using?

Thank you,
Rich
