Please share your comments on the proposed Rochester Natural Gas Pipeline Project

- What human and environmental impacts should be studied in the environmental analysis?
- Are there any specific methods to address these impacts that should be studied in the analysis?
- Are there any routes or route segments that should be considered? (Related to the Route Permit)

In regards to Rochester Natural Gas Pipe line,
the County of Olmsted, Rochester town and the City
people should be included on all meetings, and
or be informed.
As per routes for the pipe line, road Right of way
are there for that purpose. Permits are required.

Irrold M. Hanson
