THEY CALLED HIM A FOOL THE END OF EDUCATION A DANGEROUS BUSINESS

R OR more than an hour I sat in a little village store and listened to an old man as he talked about life's problems. The fellow appealed to me and his words rang so true that I have neither forgotten the man although wears that I have neither forgotten the man nor his utterances, although years have now passed into the Chambers of Yesterday. I remember distinctly that the old man's neighbors in an-swer to my query said, "Swanson is a fool, a nut—something gone wrong upstairs, stranger." If Swanson was a fool, I wish there were more men as "foolish."

"I've traveled some in my life," said Swanson, "you know I sailed the high seas for more than 20 years." I noticed that most of the men in the store paid little attention to the old man. Some smiled knowingly. Others acted as if they were bored. I, however, encouraged the one-time sailor.

sailor.

"I have seen life in nearly all latitudes and practically all longitude. I have paid some attention to the ways of people. Well, you know, things would be different if all of us knew where we were going. Most folks sail along without a destination in mind. What would you think of a ship-captain roaming the oceans without steering for a port. That's what nearly all people are doing. I'm a living example of a man who sailed for nowhere in particular for so long that I nearly wasted my life.

"When I came to these parts, I settled down on a piece of land that folks said was worthless. Well, I set right to work to show them around here that the worthless land was good for something. For the first time in the life I have something definite to

here that the worthless land was good for something. For the first time in my life I had something definite to go after—I had a goal. You ought to see my farm, stranger. Water holes and stony acres and hills only made the job of mine more interesting. I the job of mine more interesting. I can get a good price today for 'Swanson's rabbit pasture.' It pays to know where you are going. Oh, it's been lots of fun, this life of mine out here. I've had to study and work and work and study. Over on my farm I've got bees and chickens, and ducks and bees and chickens and ducks and geese and dogs and cows and pigs and goats. They all helped me. I read in books about them and went ahead

"Do you like towers, cister? You ought to see my flowers. I give away my flowers. They make people happy. Just this morning I took a big basket of flowers to Annie, Ole Johnson's crippled little girl. She loves flowers nearly as much as I do. I get a lot of pleasure from my flowers 'cause they drive folks' tears away. Yes, I have a good time out here living and knowing why I worrked."

The goal of all education must be human happiness, otherwise there are grave dangers ahead. Neither is it the aim of education to make an individual a better 'scrapper" in a dog-and-cat struggle for wealth. We have said to our young folks, "get a good education so that you can pull the man who hasn't your education down from the rung that he has gained." This has created in our economic adjustment a "knifesticking" competition. Is that education for human happiness? Is the individual who has won in the "battle of claws" happy?

W E HEARD a public speaker say recently: "Unless the country boy is KEPT (note the word) on the farm, America is doomed—doomed to starvation. The rural school has a mighty job—the making of farmers." Here is the answer the publication gave: (A). "It most certainly is not all right. The races should not inter-marry. You are far too young to take a step like this. At least wait until you are twenty, and I think you will find this 'love affair' has passed away. And before you marry into the colored race, ask yourself the question whether or not you wish to have colored children."

There you are that some of the very problems the Klan has taken up. For these two young people to marry is to violate one of God's laws and the law of man himself. It is a crime against nature itself. There should be no mixture of the races and the racial blood.

How-ever, the old saying holds true, we must have people in public office who will regard such a position as a public trust and not as a private snap and who will conduct themselves accordingly. That is an American idea that holds good today as it

The thing that the public is thinking of is, that if Daugherty and Denare guilty, they should be impeached, and not merely covered over with mud and then requested to re-sign from office. That savors too much of the game of playing politics.

Here's More Politics President Coolidge is no slouch in California, and of course Senator Hiram Johnson does not like that. Johnson and Hoover are not on speaking terms. While Hiram goes bobbing over the country scoring the Coolidge administration, the president in turn appoints a Hooverite to the cabinet. are not done by the Republican par-ty in its platform in Cleveland in June. And you and I know right now that the Republicans are not going to do the bidding of Bob LaFollette in June or any other old month.

The Democrats can hardly contain hemselves over this announcement They may laugh too soon. They ought to keep still until after the thing is done, but they can't do it. They are immensely pleased over the outlook and can't conceal their attitude at all, for they well remember that the third party movement in 1912 was what put Woodrow Wilson in the White House and made a Democratic administration possible. They see the same thing happening again to their advantage. In this congress, LaFollette and his crowd unquestionably hold the balance of power in both branches, and a LaFollette revolution this year may throw the November election results into the house and senate for settlement. Bonus Up to Coolidge It is a well known fact that President doesn't like the idea of a bonus baby being left on his front door step one of these days, and he sees it coming up the White House driveway. Congress seems to be the wet nurse and the president is wondering what to do with the thing when it arrives. It is now thought in Washington that if the president vetoes the bill as he has indicated that he would, that congress can muster up the necessary strength to pass it over his veto. FIGHT QUESTION OF IMMIGRATION

Stickler Is 1910 or 1890 Census as Basis of Quota Law Says Johnson

LAW EXPIRES JUNE 30

More Japanese Come to United States Than Any Other English-Speaking Nation

Bureau of Publication and Education WASHINGTON, D. C., March 31,-The big fight coming in congress next week is on the immigration question," declared Representative Albert Johnson, of Washington state, chairman of the house immigration committee in a speech which he broadcasted to the country last night over the radio.

"Two main points will stand out in that fight, viz. whether we shall be governmed by the 1890 census or the 1910 census in determing the quoto of immigrants to be admitted," continued Mr. Johnson. "If we take the 1890 census there will be admitted to the United States 180,000 persons per year, while iif we have to adopt the 1910 census it will mean admitting 355,000 persons annually.

Percentage Tangle "Then the other point which will be fought will be whether the quota shall be fixed at 2 per cent or 3 per cent. I have always contended that the United States cannot be forever an asylum for Europeans who seek to flock here in great numbers. I favor the 2 per cent quota and the 1890 census and the majority of the house committee feel the same way about it, although, of course, there will be a minority report on the matter which will have to be threshed out on the floor of the house. I also favor a strict examination of all applicants overseas before they under take to depart for this country.

"The present law expires on June 30 next. That is why we are pushing for this new law to go into effect at that time. If, by any chance, the new law should not be made effective then you will see the greatest influx of immigrants this country has ever known in its history. Such an influx of immigrants would only be limited to the carrying capacity of all steamships plying the ocean, as the pressure is terrific to come here.

"The house committee contends that there is sufficient labor here now to take care of the demand for labor by manufacturers and others in the employment line. There has been no shortage of labor in recent years. At any rate our gain in population has been large; it has amounted to 10,000,000 in the last ten years. The gain last year alone was over 1,500,-000; and the last six months of last year it amounted to over 500,000. And of that number 120,000 people came into the United States through Canada alone.

Creager, Republican national committeeman for Texas, to have the investigation which was being made into the Alamo Land and Sugar company by a postal inspector from the Kansas City district transferred to the jurisdiction of some other agent.

Mr. Creager charged that J. M. Donaldson, the inspectator who started the inquiry, was prejudiced, and Creager used his influence to have the case taken away from him and given to a Philadelphia man. Beginning in October, 1921 soon after Mr. Creager and other land company officials had called at the postoffice of Brighton, England, who will sail to ask, according to tesetimony, that no action be taken until the new inspector had completed his investigation, the correspondence covered a period of some four months.

When Attorney Page told the committee about the inquiry being dropped Mr. Creager was at once on his feet with hot protest.

The factory's motto is, "Twenty-four hours service." And that motto is no idle threat. They are working night and day to maintain a surplus of 20,000 robes—and doing it. The Twelfth Chapter of Romans As A Klansman's Law of Life

(EDITOR'S NOTE—This is the sub-stance of a sermon delivered by Rev. Here we are warned not to be W. C. Wright, of Plainview, Texas, fashioned after this world, not to on the principles of Klankraft as set forth in this wonderful scripture.)

THE twelfth chapter of Romans contains more of the fundamenal teachings of Christ, and more of the practical rules for Christian living than any other one chapter in the whole Bible. Klansmen have adopted it as their Law of Life because it presents so many of the sacred principles which the Klan

secks to inculcate and so beautifully portrays the sublime characteristics of our Criterion of Character.

Prof. Drummond, in his wonderful essay on "the greatest thing in the world," passes the thirteenth chapter of First Corinthians through the prism of reason, as it were, and separtes "love" into its component parts, showing the ingredients that enter into its composition. Let us analize the Klansman's Law of Life in this way and note the pleasing

Verse One

By this we are reminded that we are "brethren," not only in a common cause, but by racial blood as well. Our attention is also directed to "the mercies of God," which we too often forget and fail to recognize and appreciate. We are also commanded to make a tremendous sacrifice, "our bodies." The Jews had long been accustomed to offer as sacrifices the dead bodies of animals; members do not perform the same members do not perform the same sacrifices the dead bodies of animals; but the apostle here demands that we offer "our own bodies," as a "living" sacrifice. This was the supreme test. Man thinks more of his body than anything else he possesses. He will gladly give up honor, glory, reputation, character, friends, wealth, and even his own soul, to save his body. The soul may be sin-sick, and nearing the portals of eternal death; but he is not alarmed, nor does he call in the Great Physician to heal the malady. But let the body become sick and one is equally essential. It takes all of them to make up the one body. This is perfectly clear.

So the apostle reasons that there are many members (Christians) in the body of Christ (the Church); and that every one is "members one of another," is vitally connected and indispensible. We form one perfect whole. So it is with the Klankraft, there are many Klansmen in the body; they do not perform the same office; but each one is equally essential. But let the body become sick and endangered, and he calls a human physician, post-haste, and utilizes every available means to secure relief.

To lay our "bodies," yet "living," on the altar of service, is the supreme on the altar of service, is the supreme sacrifice. We are further informed that this "living sacrifice," our bodies, must be "holy, acceptable unto God." This demands a clean, consecrated life. God will not accept an unholy offering. But the apostle very modestly declares that this is just our "reasonable service." Verse Two

"And be not conformed to this world; but be ye transformed by the renewing of your mind, that ye prove what is that good, and acceptable,

The reason for this change is given: "that you may prove (or show) what is that 'good,' and 'acceptable,' and 'perfect' will of God."

transformed, or different from the world, that our lives will prove what is the will of God. Let God show his perfect will through us to others.
"For I say, through the grace giv-

en unto me, to every man among you, not to think himself more highly than he ought to think; but to think soberly, according as God has dealt to every man the measure of faith." Aside from the grateful acknowledgement of God's rich grace, to which we are all indebted, this verse teaches us to think seriously to be modest and unassuming. Selfboasting, self-conceit, pride, arrogance and over-confidence are wholly excluded. We are warned not to over-estimate ourselves; but to be "I beseech you therefore, brethren, by the mercies of God, that you present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service."

FLORIDA KLAN HOLDS FIRST PUBLIC PARADE

National Lecturer Explains Organization at Public

INVERNESS, FLA., April 1.-In verness Klan made its first public parade through the streets of this city last night. The presence of a Klan here was practically unknown except to its members, and the ap-pearance of the Klansmen was a pleasant surprise to many of the lo cal residents.

The parade was followed by an ad dress by a national lecturer of the Klan, who spoke for some time, outlining the plans and policies of the organization, and explaining many things concerning the Klan which local people either did not under-stand or about which they had been

misinformed.
Inverness Klan is growing rapidly and the better class of men in this section are affiliating with the new

or preferring one another."

Brotherly love is a commendable virtue. It is the recognition of the Fatherhood of God and the Brothergood of man. Klansmen are brothers in a common cause against a commo foe. Preferring one another in honor teaches us to be unselfish in seeking to honor each other. This is the spirit of unselfish fellowship.

Verse Eleven
"Not slothful in business; fervent in spirit; serving the Lord."
This teaches us that we should

not be lazy, indolent or indifferent in our business or vocational affairs; and that we should be spiritually alive and active in serving the Lord. There is no room, either in the temporal affairs of this life or the spiritual affairs of the kingdom of God for a slothful or lazy man. The same is true of Klankraft. A Klansman must be actively patriotic and man must be actively patriotic and constantly Klannish.

Verse Twelve
"Rejoicing in hope; patient in tri-bulations; continuing instant in pray-

Hope is the anchor of the soul that reaches to that within the vail. Christians should rejoice in that hope. Klansmen should rejoice in the hope that the sacred and sublime principles of Klankraft will triumph over the wrong, and that "right will rule the earth." All of us can be patient when everything is all right and goes to suit us; but with diligence; he that showeth mercy, with cheerfulness."

troubles and tribulations come we need to be patient. We have passed through the fires of persecution: have been abused, misrepresented, vilified, cursed and hated, but we have borne it all in patience. In patience we will win the victory.

"Continuing instant in prayer means to be always praying. Pau said another place, "pray hi and again, "pray without dive The smallest wheel and the shortest belt in the great factory are just as essential and necessary as the great fly-wheel and the massive boilers. Let no Klanman despair because he let no klanman despair because he cannot be the head or heart; but let

saints: given to hospitality."

Let us not forget that this is es sentially a great fraternal and bene volent order. Charity is a great virtue. We should seek to build hospi tals and homes for the needy and to relieve the sufferings of the poor. Christ came not to be ministered unto, but to minister. We should endeavor to follow his example; ev-ery Klansman's life and home should be aglow with real hospitality. This is the spirit of unselfishness. Ministering to others is one of our imperative duties. Our motto is: Not for self, but for others.

Verse rourteen

"Bless them which persecute you; bless and curse not." This is hard to do; but the harden the task the more important it is. Let us refrain from denouncing our persecutors. They are to be pitied rather than sensued. Let our enemies hurl their curses, but let us "bless and curse not."

Verse Fifteen
"Rejoice with them that do rejoice and weep with them that weep." This verse teaches us the lesson of sympathy and fellowship. We should share the joys and the sorrows of our brethren. The joy of others should increase our joy, and their grief should make our hearts sad. Enter

into their lives, for we are all a part of the great whole. Verse Sixteen "Be of the same mind one toward another. Mind not high things, but condescend to men of low estate. Be not wise in your own concits."

To be of the same mind means that there should be no fiction, malace, envy, division, strife or disention. Let harmony prevail. Furthermore, we should not be highminded, puffed-up, arrogant or selfimportant. That "better-than-thou"
spirit is excluded by "condescending
to men of low estate." Klansmen
are not distinguished by the fiber of
their garments, their social standing. their garments, their social standing, their political influence, nor their bank account. They are on a plane of equality. "Be not wise in your own conceit," is a timely admonition to all Klansmen and should be wisely heeded. Be like the owl who lived

n an oak. Verse Seventeen "Recompense to no man evil for

It is hard to keep from paying our enemies back and adding a little for interest. We are prone to "get even" with the other fellow. The law of Moses said, "An eye for an eye, and a tooth for a tooth." But our Criterion of Character taught us to "re-turn good for evil."

THE MINNESOTA FIERY CROSS

The MINNESOTA FIERY CROSS is published every Friday by the Empire Publishing Company, St. Paul, Minnesota, and will maintain a policy of staunch Protestant Americanism without fear or favor. Edited, not to make up people's minds, but to shake up people's minds; to help mold active public opinion which will make America a proper place to live in.

News of truth kills more false news and shrivels up more "bunk" than all carnest arguments in the world. Truth helps to clarify opinions on serious sations by serious people.

The MINNESOTA PIERY CROSS will strive to give the American viewpoint published articles and separate the dross from the pure gold in the current

Divine Guidance

"One, with God and right on his side, can win any battle!" That is the keynote of the entire Klan movement which is sweeping the United States. It was enunciated Sunday in Des Moines, by Dr. Hiram W. Evans, Imperial Wizard, who addressed three meetings.

The Klan, composed of Protestant, native-born, white, gentile American men, no matter how small their numbers, can win any battle, provided they seek their guidance in God and their cause is just.

Surely the cause of the Klan is just, or it would not have prospered as it has in the last few years. Under the leadership of a man of Dr. Evans' type, who clearly visualizes the spiritual side of patriotism and citizenship. the Klan is bound to continue to prosper.

The entire history of the United States is a carrying out, a proof positive of a great divine law: "one, with God and right on his side, can win any battle." The colonies, against great odds, fighting for a just cause, with God on their side, defeated the mother country and gained their independence. The Civil war, fought over a just cause, that of human freedom, was won against odds, because the North had God on its side. And many times in the history of the nation and in the histories of the separate commonwealths have similar crises arisen, when the right prevailed, although the forces of the wrong crowded down in overwhelming numbers.

Indeed, the municipal election in Des Moines, which centered about the office of public safety, was a victory for right. During the entire campaign it did appear as though the forces of the underworld, with huge sums of money available, the press on their side and ostensibly all indications pointing in their favor, would triumph. But instead the candidate representing the underworld went down in ignominious defeat.

The enemies of the Klan, and some Des Moines ministers declare that the organization is un-Christian and un-American. Mark well the words of the Klan's leader, when asked about the municipal election in Des Moines:

"Get down on your knees and talk with God that He may aid you in choosing the man most truthful, honest and upright."

band? Do these words sound un-American or un-Christian? The same advice was lived up to by Americans—leaders and citizens—in years past, and saved the country from many a pitfall. As Dr. Evans made clear, that is the only way America can be set on the right track today. That is the only method real Americans can pursue to get back to the ideals of the forefathers and follow their plan for the operation of national affairs.

The local newspapers claim that the entire Klan ticket in Des Moines was defeated except the candidate for superintendent of safety. Be that as it may, there are thousands of people in Des Moines who know that the Klan is here. In other words, that there is an organized element for right and justice, as well as an organized underworld. This election was the first in which they have co-operated as one. And indeed, with God and right on their side they made a victorious showing.

School Text Books

Public education is popularly supposed to be free education. But free education which requires the purchase of textbooks by scholars is not free. So argued the proponents of free text books a hundred years ago and so they have argued since. Their arguments have had much effect, since today 41 states and the district of Columbia have laws of one sort or another regarding free books for public schools.

Six states provide school books at state expense, buying them directly from the state treasury. In thirteen states the laws make the purchase of books by local authorities mandatory, thus making each community pay for its own books through local taxation. In twenty-one states, school funds may be used for the purchase of free books. Some states furnish all books free; others furnish books for the lower grades and have high school pupils

There seems to be no reason why a pupil should buy a book, when the authorities do not require him to buy a desk, or pay a teacher. All three are part of the mechanics of teaching. But there is always the question of foolish economy to be considered, and the foolish economist wants to use a state furnished book until it wears out, and to issue and use all the supply bought, even if a new and much better book is available. There is someding to be said on both sides of the question, at least where the higher grades are concerned. Meanwhile, it is obvious that there is no child so poor but what he can get his education, book and all, at public expense. thanks to the spread of the idea that books should be as available as teach.

In the course of a recent history lesson the young woman teacher talked against the Klan, stating that the order is un-American and that personally she would have nothing to do with anyone who belonged to it.

This teacher is the only one on the staff of the local high school who has so far sought to inculcate her private opinions into the minds of her

pupils. Investigation by irate parents of pupils who were reputed to have heard the remarks proved that there was no call for a discussion of this order in the course of the lesson, but that a mere incident was apparently deliberately seized by the teacher thus to vent her personal disapprov-al of the order and at the same time to implant a similar dislike in the minds of her pupils.

HAWKEYE STATE RED WING, MINNESOTA, KLAN PASSES RESOLUTION ON LAW ENFORCEMENT

RED WING, MINN., March 26.— The Red Wing order of the Knights of the Ku Klux Klan drew up and passed a resolution for law enforce-ment that is definite and determined in its language. And there can be no doubt left in the minds of the duly constituted officers of the law in Goodhue county as to the position of Klansmen here, so far as law en-forcement is concerned.

The resolution was given to the public as a paid advertisement appearing in The Red Wing Daily Eagle dated March 15. Needless to Eagle dated March 15. Needless to say, the resolution has created a sensation and opened the eyes of a large number of people who have been waiting on the side lines ready to join hands with their friends and neighbors who have been working fearlessly for better things. "The joining of these two forces, viz., the American Federation of Laoor and the American Legion to combat propaganda for unrestricted im-migration is offered as an indication of the fact that the great masses of American people are entirely out of sympathy with the attacks being levelled at the Johnson bill or at any proposal to restrict the inflow of Europeans," said a statement from the federation.

What Gompers Says

Samuel Gompers, president of the American Federation of Labor, says: 'American must not be overwhelmed Every effort to enact immigration legislation must expect to meet number of hostile forces, and in particular, two hostile forces of considerable strength. These are composed of corporation employers who desire to employ physical strength at the lowest possible wage and the racial group in the United States who opoose all restrictive legislation be cause they want the doors left oper for an influx of their countrymen regardless of the menace to the people of their adopted country.

The national association of manufacturers is out and out opposed to restrictive immigration and has so gone on record. The immigration committee of that organization has recommended that congress re-enact the 3 per cent quota law, expiring next June 30, with added provision for administration of the act in such manner that immigration might be gauged to suit economic require-ments and meet the nation's ability to assimilate newcomers. A permanent government policy towards immigration was advocated and the appointment of a commission to compile data for use in the adoption of such policy.

26 WINDY CITY KLANS FORMED INTO ONE BODY

Action Taken Following Conference of Exalted Cyclops in Chicago

Protestant Americans Now Are Linked Like Allied Armies

CHICAGO, ILL., March 31.—The most constructive step taken by the Knights of the Ku Klux Klan in this metropolis since the first fiery cross was burned here more than three years ago, was effected last night when the Exalted Cyclops of the 26 organizations within the city limits voted to unite their strength in one

gigantic Klan.

This action was in keeping with a plan suggested by the Grand Dragon and is considered a great personal victory for him as well as a fatal blow to those malcontents who have worked almost from the beginning to bring about from within that disto bring about from within that dis ruption that the "foreign" enemy ould not achieve.

Chicago has been the scene of a bitter contest between Americans and those who would combine the functions of the church and state That Protestantism could not always be victorious goes without saying when the Klan was open to penetration on all of its 26 Klavern fronts.

The plan of uniting all the strength of the Chicago organizations into one

giant "flying wedge" of "shock troops" is not only designed to bring about results desired by the Klan, but to make possible an intensive membership campaign, impossible with scattered forces.

The dissension within the ranks here engendered by enemy propa-ganda will be eliminated with the consolidation of forces and the surrendering of the several Klan charters. These thousands of loyal mem-bers who have remained untainted will be brought into the giant Klan while those unfortunates, who have listened to the seductive voice of personal ambition, or who have fallen victims to greed or subservience will be both literally and figuratively men without a country."

Under the plan proposed by the Grand Dragon, the several Klans in the city will continue to function as separate organizations in so far as their meeting places, social diver-sions, fraternal relations and comsions, fraternal relations and com-munity programs are concerned. Their membership is in the giant Klan, however, and under its mili-tary formation their constructive activities will be guided by its gov-erning board. This governing board is made up of the several Exalted Cyclops. In this way all Chicago Klandom will have the counsel of concentrated leadership, much as the army has the benefit of a general staff.

Individual units here fighting val-iantly but hopelessly for "lost causes" have been likened to the al-lied armies in he world before their strength was united under a supreme command. "In unity there is strength," and under a centralized command the "shock troops" of Chicago Klandom will inevitably sweep

Verse Twenty-one "Be not overcome of evil, but over-ome evil with good."

This last verse sums up the whole matter in ten little words. Do not let evil control your life, dominate your actions, or in any way get the upper hand of you; but overcome evil inclinations and influences by filling your life with good. Be so occupied by, and so interested in doing good that there will be no place in your life for evil.

Mr. McAdoo, who received considerable of a setback through the dis-closure of his connection with Do-

neny and Sinclair interests, has partially recovered his equilibrium by his big victory recently in Georgia. The McAdoo followers seem to feel that if they can't nominate their man that they at least can dictate the nominee to the convention, although they have by no means given up the idea of nominating the man from Georgia—New York—California next June, in New York.

Don't Want Religious Scraps

Some of the Democrats who are partial to Governor Al Smith, of New York, are going on the theory that the fact of Smith being a Roman Catholic ought not to prevent him from receiving the Democratic nomfrom receiving the Democratic nom-ination. They are saying that this re-lgious queston is bound to be fought out some time, so why not bring on the scrap in 1924 and settle it one way or the other, first as last. The Klan of the United Stales would welcome such an opportunity as that to make itself felt, but there is no use of expecting that fight to develop this year. The other Democrats of the nation are too smart to walk in-to an open trap like that, not on your life will they permit such a fight to be started this year. Smth hasn't a look-in for the Democrate nomina-

look-in for the Democrate nomina-tion. If it were left up to one state, and New York was that state, the writer would say that he had an op-portunity for the nomination, but don't fool yourself, the Democratic party of the nation is not going to let New York state lead the party to a premeditated suicide anything like that.

Other Scandals Other Scandals
Yes, the United States and the Republican patry has been rocked with csandals this spring. They couldn't be much worse, but Uncle Sam is not he only country to suffer in this way. It is not so many years ago since France was rocked far worse over the Panama canal scandals which so shocked the world at that time. Great Britain has had its upheavals

hat have upset its cabinets and even that have upset its cabinets and even rocked its noted premier. Lloyd George, out of office.

Of course this is no excuse for the troubles the United States is in. Our oil affair is not lovely, in fact it smells to high heaven, but the thing to do is to clean house, thoroughly fumigate it and go on. The Democrats say the Republicans can't survive the 1924 scandals, but the Republicans are going to try to live and
