Give me a towel; I can't hold back the tears when I read the names. A Minneapolis anti-Johnson immigra-Minneapolis anti-Johnson immigra-tion bill meeting was addressed by Judge Pam, (a Chicago Jew); Mayor Leach, (Minneapolis—Hold her, Newt); Fred A. Ossanna, (I smile); the Reverend J. J. Cleminski, (Pas-ter of the Holy Cross church— enough said); Rabbi C. David Matt, (ween with me.) (weep with me.)

The politicians, nowadays, sing with pathetic seriousness, an old, old song, entitled, "The Taxes Will Get You If You Don't Vote For Me."

The campaign manager of Colonel Leach must be suffering from glooms—or something, now that he has learned how enthusiastically (?) the Minnesota people accepted the Leach-for-governor boom. It looks very much as if the boom became a boomerang somewhere in transit.

The way some people drop the much-abused nickel in the collection tray, you'd think that the ushers were passing around slot machines rather than giving church goers an experience to do their part in the opportunity to do their part in the support of the Protestant churches.

Many a girl who "sticks up her nose" at a man in overalls, marries a white-collared loafer, who early introduces her to the wash tub.

Where Protestant ministers em-phasize Churchianity rather than Christianity, you find empty pews.

Jake Preus says he won't be candidate for nothing. Now doesn't that make you feel hurt. But then the Minnesota governor has been feeding from the public trough a long, long time. Perhaps he has learned that the people of the Gopher state are determined in their decision to send determined in their decision to send him back into the cruel world where a livelihood must be earned by the "sweat of the brow."

Bishop Joseph F. Berry of Philadelphia, in addressing the eightyeighth annual New Jersey Methodist conference, was reported to have said that "the Ku Klux Klan has a very bloody history." We can't help but wonder what history the bishop has been reading. Isn't it possible that in a moment of absent-mindedness he permitted a non-Protestant to slip one over by making him think that the story of the Spanish Inquisi-tion told all about the Ku Klux Klan. Investigate the source of your information, bishop, so you won't go astray again.

WRITER OF POLITICAL LETTER HITS THE POINT IN ST. PAUL

Recently there appeared in The Pioneer Press, of St. Paul, a contribution which is crammed with thought-provoking statements. Who-ever the writer, A. L. H. may hap-pen to be, we can't help but feel that he has hit the St. Paul political situation square on the head. We are, therefore, reprinting the letter by A. L. H. as it appeared in The Pioneer Press. It follows:

Mr. William Peter has promised that "St. Paul will not be smeared with oil this coming summer," which sounds good. We had a sufficient quantity last summer to linger in our memory for a considerable length of time.

He promises further that our

garbage will also have his close attention and be collected, oh! so regularly. I wonder. A candidate seeking public office is apt to take himself seriously at times, even as you and I, and the gullible voters have been taken in by Mr. Peter's various promises be-Mr. Peter's various promises be-fore, and "just before election, mother" a candidate seeking public office is long on promises but short on execution after election, and assured of drawing a nice fat salary for the next two years and a luxurious city car in which to haul himself and family around.

When we saw Bill Peter the other day with a wheelbarrow in hand, our one thought was, "how very becoming," and we wondered why so many good men are misplaced.

his Honor, the Mayor and Bill Peter have patched up their differences and it is authoritatively reported that on a recent occasion Arthur slaughtered the fat-ted calf and bid Mr. Peter to sit ted calf and bid Mr. Peter to sit at his board to partake of said calf. Mr. Ferguson came out a week or two ago with his hook bated to catch the teacher's vote. He awarded them the muchly promised raise just recently, or was that just a promise. We forget. Anyway it was good bait. If Mr. Ferguson succeeds himself at the coming election there may be another promise forthcoming before the 1926 election. Pre-election days are generous days and the thoughts of politicians are long, long thoughts.

No Man Should Be Judge of His Own Case," Says Supreme Court Jurist

ST. PAUL, March 10.- The big seeret of the success of the American constitution lies in the first element of its structure; to make a central government operate directly on the ndividual.

This was the thought expressed by Royal A. Stone, associate justice of the Minnesota Supreme court, before members of the Engineers' Society of St. Paul at the Athletic club recently. Judge Stone's subject was "American Constitutionalism."

The speaker pointed out that the framers of the constitution knew well the danger of power in human hands. He termed the document a piece of wonderful engineering. He said that seven years had transpired man, will play a prominent part in the Democratic national convention a central government was formed. "How near we came to absolute

The constitution, Justice Stone argued, set up a series of "umpires" of the government game by creation of the courts, especially the supreme court. The charge was made that judicial power had been usurped and Russian-Slovakian Church Flies was dangerous. He made no comment on the first but flatly refuted the second charge.

So long as congress may pass a bad law by a majority of one and de-feat a good law by the same majority, why not permit the appellate courts to reach their decisions by a majority of one?" he asked.
"We are suffering from a violation

of the idea that government ought to be kept as close to the people as possible," said Justice Stone. "If we Should Not Judge Own Acts"

The Washington Post Calls for Limited Immigration

(Bureau of Publication and Education)

WASHINGTON, D. C., March 10.

The Washington Post hits the nail on the head with an editorial entitied: "Restrict Immigration."
It is worthy of reproduction and is as follows:
"It is easy to understand much

of the opposition that is moving against restrictive immigration, but it is difficult to understand how it carries even the slight weight that it does. Most of that opposition is to be debited either to American industrial interests that in seeking to further their own would disregard the larger national interests or to those under influence of so-called foreign votes. No arguments that can be advanced by exponents of such in-terests or by the subjects of such influence call for serious consideration. The paramount interest in America is that of the nation as a whole, and that manifestly urges increase of restrictions on alien inflow. As for the foreign

vote, that is an anomaly. Its mere existence urges against continuing the laxity that permitted it to come into being. The only influence to be considered in the immigration matter is that exercised by good Americanism, which last is irreconcilable with 'fore-ign votes.'"

of congress. Small cash payments and paid-up insurance policies will form the basis of the new bonus bill,

according to word on Capitol Hill to-day among the legislators.

With the approval of the American Legion the house ways and means committee is planning to draft a bonus bill providing for cash payments only to those veterans who are entitled to no more than \$50 on the basis of \$1 per day for home service and \$1.25 a day for service overseas. It is estimated that this will cost the treasury about \$30,000,000.

The great majority of the veterans, however, will get insurance policies, the amounts to be based on their length of service. The policies will

have a cash loan value.

Representatives of the American Legion, who have been in conference with the framers of the new bonus bill have agreed to drop the land gift, farm loan aid and vocational aid features of the bonus legislation vetoed by President Harding in 1922 and to concentrate their efforts on the new two-fold plan.

St. Paul Holds Enthusiastic Klaveran Meet

(By TWILIGHT)

The largest Klavern attendance in the history of the Capitol City Klan was held at the last meeting. And Body Has Sent Appeals to the old-timers bubbled over with happiness, as they saw concrete results of past hard work. The prevailing spirit at this meet-

ing was not only-satisfactory, but very contagious. Not a single man left the Klavern without a greater determination than he ever had be-fore to put Klankraft directly to the front in St. Paul. It is generally ad-mitted that the Klan is needed as much, if not more, here than in any other metropolitan community in the United States.

Many of the old-timers agreed that

were not generally acceptable. Believe me, when I say that, I'm going to pass the word along and let every one of my friends know that they are missing much by not attending the meetings regularly."

Then he pointed out discouragements he and other old-timers had faced, and went into detail on some of the obstacles that have had to be confronted. At this point the old-timer said, "At last I see the goal only a short distance away. The Klan is looming big in the city of my birth—St. Paul. and it nakes me happy." The old-timer's face brightened. His eyes registered anticipa-His eyes registered anticipa-490,000 Pupils in Minnesota tion. When they reached the front of the church, the Klansmen stood in a semi-circle. They requested that America be sung by the congregation. After this the Lord's prayer was re-peated in concert. They left a donation of \$31 with the pastor to be applied to the good work of the church. This is one of the first times that Klansmen of this place have made a public appearance, and much interest in the order and the principles for which it stands has been aroused by the move.

Congressmen Asking Change in Measure

JAPANESE ARE PRAISED

Council Thinks It Knows More About Pacific Coast Than People Who Live There

(Bureau of Publication and Education) WASHINGTON, D. C., March things look mighty fine in St. Paul from the standpoint of Klankraft.

One of the "old" old-timers said "I have become absolutely convinced that our present leadership is injecting into the Saintly City Klan the true spirit of co-operation." Continuing, he said, "I like the way the officers are conducting the Klavern activities. I am with the local field man in heart and soul in his efforts to put our Klan on the right basis. I am pleased to note that he has already eliminated many things that were not generally acceptable. Believe me, when I say that, I'm going have become absolutely convinced churches (This is a Protestant representative and senator requesting a change in the bill.

This goes to show how even some Protestants are deceived and misled nowadays on the immigration ques-tion. The letter sent to all members of Congress was signed by Dr. Charles S. McFarland, general secretary, and declares that the clause "proposes to abrogate the treaty with Japan and to annul the 'gentleman's agreement' without conference or consultation with the government of Jepan." The letter enclosed resolutions abjecting to the clause.

Dr. Sidney L. Gullick, Secretary of the commission on international jus-tice and good-will of the federal coun-cil of churches, has also been issuing tatements on the subject in which he characterizes the immigration bill

as "a wanton affront to Japan."
All of this attitude is about the same as that recently expressed by Secretary of State Hughes. This federal council of churches even goes so far as to say that "Japan has done its part faithfully . Congress has thus in North Platte, Neb. far done its part faithfully. But the Pacific coast states have not done their part."

Is Poor Doctrine

That sort of doctrine is not going to get very far nowadays with red-blooded 100 per cent Americans. The people of the Pacific coast know this subject better than does the federal council of churches, and it's about time for all good Americans to stand together and preserve this country and its American school system for Americans. The way to start is to restrict immigration so that foreigners will not come over here with their world-war-torn dissensions, and inoclate the people of this country with their foreign ideas and principles to such an extent that the aliens will after while be running this government and this country, or at least trying to,, which has been their am-bition all the time. Let's make America a haven for Americans; aliens and undesirables not wanted,

"Fanatic Zealots" Is Term Applied to Contestants of Texas Election, by Lawyer

(Bureau of Publication and Education) WASHINGTON, D. C., March 4.— "My attention has been invited to many statements appearing in the public press purporting to come from the attorneys of Mr. Peddy in the contest touching the right of Senator Mayfield to continue representing the people of Texas in the sen ate of the United States," said W. F. Zumbrunn, attorney for U. S. Senator Earle B. Mayfield, today. Continuing about the matter, Attorney Zumbrunn issued the following statements of facts today:

The attorneys representing Mr Peddy are accredited with stating that Mr. Peddy is gaining in the rerecount four to one over Senator Mayfield; that out of 49 counties in which the recount has been completed, the entire recount in these counties has been rejected, meaning thereby that the United States senate or its investigating committee, has not only refused to consider but has rejected all ballots in these counties; these attorneys apparently sanctioned by Mr. Peddy and those fathering his false policy, would have the people of Texas believe that all Mayfield ballots in those counties had been discarded by the senate of the United States; these statements are as false as the cause being championed by these men.

"In the 49 counties in which the recount has been completed, there are five counties where the ballots have been entirely destroyed, hence, upon to act.

"In 11 counties out of the 49, from two to five precincts in each county are missing following as a natural sequence that in those 11 counties the recount will be rejected for the obvious reason that, under law and precedent where the sanctity of the ballots has not been preserved intact, the election certificates issued by Texas officials will be the only evidence the senate will receive.
"Thus I come to consider the re-

sult of the recount in the 33 counties out of the 49 where the ballots on the part of the Peddy forces. have been apparently preserved intact. In these 33 counties, Senator Mayfield shows an increase over the completed, the competent evidence, official Texas count of approximately if any, must be introduced before the 1500 votes. MAKE IOWA BIBLE BILL STATE LAW

Endorse Measure at Board Meeting of Federation of Women's Clubs

Custom Has Removed Holy Writ From School Room and Net Law, It Is Said

Sentiment in favor of the passage by the Iowa state legislature is gaining ground in many quarters.

Last Thursday, 200 members of the Iowa Federation of Women's Clubs. gathered in Des Moines at a board meeting unanimously adopted a resolution calling upon the state legis-lature to enact the bill into law.

Will Hace Influence It is believed that the stand the women's organization will carry much wait with Iowa solons, for the extent of the Federation is widespread in both the urban and rural

sections of the Hawkeye state.

Mrs. Flora E. S. Barkley of Boone. chairman of the federation's Biblical literature committee, framed the resolution which was presented to the board members by Mrs. W. W. Lit-tell, of Des Moines. Mrs. H. W. Spaulding, of Grinnell and Mrs. George Harnagel, of Des Moines, seconded the resolution.

Text of Resolution The text of the resolution is

"Whereas, the Iowa law providing that the Bible must not be barred from public schools, has not been changed in the past sixty years, cus-tom has virtually removed it from

the school room;
"Whereas, the Bible is not only our greatest teacher of morals, and con-tains the greatest code of ethics known; but is also the world's treas-

RELIGION IN SCHOOLS

(Marshalltown Times-Republican) New York is struggling with the problem of religious teaching in the RESOLUTION ADOPTED schools. Iowa is considering the absolutism of Bible reading as part of the daily school program.

The fact is that educational leaders are aroused to the necessity of instruction in religion and spiritual matters. Klanswomen Denied Right of Attending Funeral of Member

CLARKSBURG, W. VA., March 10. -A precedent was established here today when the Rev. Charles E. Stater, pastor of the First Methodist Episcopal church, of this city, refus-ed the Women of the Ku Klux Klan the privilege of attending a funeral service in the church.

This is the first time in the history of West Virginia that any branch of the Klan has been denied the privilege of attending a Protestant insti-

Dear Sir:

In reply to your inquiry regarding results obtained through our advertising in your paper, the writer is glad to state that of all the newspaper advertising we have ever done. the results obtained through your columns are so far ahead of those obtained through any other newspaper that there is really no comparison.

This is no guess work, but a statement based on facts obtained through observation during the past few months.

Our invitation to call, extended through the columns of The lowa Fiery Cross has been accepted by more people than through any other medium employed by us.

The number of sales consumated through these calls has proved to our entire satisfaction that the class of readers reached through the columns of The Iowa Fiery Cross are those who recognize honest values and are willing to pay for them. When they come in they buy. Results are what we want -- and we are getting them.

Very truly yours.

White Supremacy

In his lecture in Des Moines Sunday, Dr. G. C. Minor, of the national lecture bureau of the Ku Klux Klan did much to explode the existing false idea on the Klan's stand for white supremacy.

In the minds of most people, the Klan is interested only in the relation of the white race to the colored race in the United States. Dr. Minor showed conclusively that a far greater problem exists; namely, the relationship of the multitudinous colored races of the world to the white races of the world. It is this larger problem with which the Klan in the end is

Referring to history, the speaker showed that at periods approximately Ten thousand of these illiterates are four hundred years apart, since the establishment of Caucasian civilization and to live in Washington, D. C. The rest are scattered from ocean to in Europe, there have been assaults upon the white race by marauding armies of yellow, brown and black peoples. In every instance the Anglo-Saxon. Nordic and Teutonic defenders of white civilization were able to persons in every one hundred and turn back the tide of invaders and preserve civilization. Had they not done so, the history of the world would have been far different. Christianity as naked in mind as they were born would have disappeared and today Europe, despite the stress in which she into the world naked in body. To finds herself, would be in an even more pitiable plight.

That God has given to the white race the charge of Christianizing the monwealth, the Klan has set itself ently the long fight regarding antiworld and maintaining moral, mental and physical standards which are in accord with the Mosaic law, was made quite clear by Dr. Minor.

The time has come, the speaker pointed out, when the white races of the world must frankly face the problem of preventing the colored races from becoming world powerful. Despite statements to the contrary there is danger today of a "yellow peril." Japan holds in the palm of her hand the destinies of the Far East. India, joining with the yellow races under declared that in this country alone, no paper which points out that not thorough knowledge of the entire Bithe destinies of the Far East. India, joining with the yellow races under the religious banner of Mohammed, has for centuries been a thorn in the flesh of the white races, in this case represented by Great Britain. From the countries of Northern Africa comes the news of wide-spread activity which is solidifying the semi-civilized black races under French protection. While Christian activity has been carried on for centuries among these races, the number of converts gained is very limited when compared with the declared that in this country alone, the Bible is printed in four hundred languages and dialects, but that not only are the anti-aliens laws still thorough knowledge of the entire Bible The average grade of the student body taking this course, is from by part that they spread into whatever new territory. In his scholarly book on the "Rising Tide of Color," Lathrop Stoddard points out the real danger of a world ruled by the colored races within a comparatively short time if drastic steps to prevent the occurrence of such a havoc working catastrophe are not taken.

Were it not God's plan that the white race, despite its smaller numerical strength were to rule the world, the overwhelming hordes of Mongolians. Huns and Tartars would not have been checked by small armies of white men on four different occasions during the past two thousand years.

Rather than being the "white man's burden," the colored races of the world are the white man's problem. Dr. Minor made it clear that only by carrying forward the word of Christ to these people can they be raised to the proper living standard of their own sphere, and kept there.

According to Dr. Minor, the time is about at hand when history will again repeat itself, bringing about a fifth assault upon civilization by the colored races. Already indications of the gathering storm have manifested through the necessary laws, in the Manchuria and Siberia. The rethemselves. The Lausanne conference at which Turkey was given back her European possessions after having been defeated and driven out by the Allies, is seen as the opening wedge for further inroads of the colored peoples. There must be co-operation between all white nations from now on to prevent any further unjustifiable successes by Mohammedans.

In this world-wide problem the Klan is vitally interested as a Christian and a white man's organization. Despite the charges of "narrow-minded nationalism" leveled at the order, its leaders and members have the vision to see this all-important problem in the true light. There is nothing to be gained by glossing over the facts as they are known to exist. The Klan means to confront the problem four-square and deal with it according to

> Wendell Phillips referred to pop-ular liberty as a "manna"; but the whole hearted Klansman regards it as both meat and drink. Liberty leads to defensive government. Those who are free in patriotism are strong to defend themselves against the aggression of the selfish man who would, like a vampire, drink the blood of the whole nation.

Too frequently the funda-mental laws of the common-wealth are neglected by wild legislators who are driven by noisy groups to whom they owe their political prestige. The need of the hour is not the emasculation of our courts, but more accurate interpretation of our laws. Less damnation of vested authority and a more active defense of the constitution and its depending statutes would act as soothingly upon the nerve fibers of the nation as a tablet of veronal on a man dying of insomnia.

CRESTON, IA., March 10 .- Southwestern Iowa boasts of one of he very few towns or cities in the country that has taken the lead in placing Bible instruction in the public schools. That town is Greenfield, located in Adair county, and quite possibly with one or two exceptions is the only town in the state of Iowa that has such instruction. At least the town lays claim to being the first in the state to establish such instruction in the public schools, it having started such instruction almost three years ago, and much progress is now being made toward a definite program for the future.

Moral Weakening and Effeminacy Charge Against Modern Youths

PARENTS ARE BLAMED

Boys Must Be Given Real Responsibilities if They Are to Develop

(Special Correspondence) MILWAUKEE, WIS., March 10 .-Effeminacy, moral weakening; their opposite extreme, vicious lawlessmess—these are not mere words, says Col. Ferrand of St. John's Military academy, Delafield, Wis., but very real and present dangers.

Speaking recently before the Grand avenue Men's Congregational club of Milwaukee, Col. Farrand in no uncertain terms called attention to an increasing tendency toward immorality and aimlessness on the part of a large portion of the younger genera-

Nor were his warnings mere generalities, for, one after the other, he cited instances and statistics, gathered from throughout the country, that made his hearers gasp. Grade schools in a city of 100,000 with 95 cases of social disease in one year. Fifteen girls compelled to leave a high school in one term because of approaching motherhood. Banditry.
The increasing number of so-called Plans for the observance include a lounge lizards with their sleek-haired, girlish prettiness. All of these, not isolated cases, but more or less typical throughout the country.

Blames Parents Col. Farrand laid the blame squarely and bluntly at the doors of parents and educators. Of the younger

generation he said: "I sympathize rather than blame, I condone rather than condemn." But of parents and teachers, "I think that never since time began have parents been so incompetent, or teachers so indifferent. There is where the blame lies, and if our country goes down to ruin and decay, it will be because the parents of to-day have miserably failed."

Col. Farrand seriously suggests that one of the needs of the age is a school for parents—to teach the actual job of fatherhood and mother-

Farmers are really the "big business" of this country, and "when they realize that fact agriculture will gain its proper place in our economic life," Frederick Benz, agricultural agent of the Northern Pacific railway, declared Tuesday in an address before the St. Paul Transportation club at its weekly luncheon meeting at the St. Paul hotel. Mr. Benz was for many years a successful Washington farmer.

"Note that our agricultural industry," said, Mr. Benz, "with a valua-tion of \$77,924,100,336, is worth more than all our coal mines, banks, rail-roads and factories, which have a combined value of \$72.358,479,027. America is primarily an agricultural nation. The American agricultural college should be our foremost institution of learning.

The needs of agriculture today, as I see them, are simply education, legislation, representation, organization and elimination. Unless we recognize and grant these just needs, we face a national crisis more threatening than we have ever faced before. The greatest need of America today is a thoroughly educated and well trained agricultural population

fitted for scientific production and scientific marketing, and if this were provided, many present farm problems would disappear. "Organized farms would help the

situation. Investments, depreciation, costs of operation and management should be known and a record kept. "The untaxed wealth of our country should be taxed to relieve the ax burdens now borne by the farms. A lot of pernicious laws which lead to universal hardship and extravagance should be repealed. Our gov rnment should be simplified to make it more efficient and reduce its cost. Farmers should be represented in our

aw-making bodies by statesmen, not

y politicians."

Since that time, Mr. Lindahl said, up to the present date, more than \$67,500,000 have been distributed to the schools of the state from the interest on the permanent school fund and the one mill state school tax in approximately equal amounts.

The money for this recent appor-tionment is available to the several school districts just as soon as the county treasurer makes his March tax settlement to the state.

Changes in state aid to assure distribution so that rural schools and high schools will derive greater benefit were under discussion late today by the Minnesota School Board association, as it wound up its two-day

session at the state capitol.
State aid was the main issue in discussion of proposed legislation for schools, as the association went on record for a committee to assure closer co-operation with the Minnesota Education association, and pre-pared to elect officers.

The question of financing educa-tion of pupils in districts away from home was debated, some members arguing that the state should continue its practise of paying \$7 for the sup-port of pupils in other districts and others arguing that the cost should be borne by the district in which

they live.

Methods of distributing state aid were discussed by J. M. McConnell, state commissioner of education, who explained that the purpose of aid was to assure equal opportunity for all children, to stimulate progress to provide teacher training depart-ments and to aid school districts with high tax levies.

Speakers today included George E. Susens of Alexandria, who discussed taxation as a means of obtaining funds for advancement of education, and A. P. Ritchie of Bemidji, who discussed transportation of pupils.

Milwaukee Klansmen, nativeborn Americans all, are descended from the great peoples of northern Europe, where liberty and enlighten-ment flashed its truths over the continent, severing the shackles of superstition and mental bondage. Milwaukee Klansmen, as Klansmen everywhere, are descendants of those free men who followed the great Martin Luther, of those valiant warriors who served under Gustavus Adolphus, of Sweden, who smashed the armies of "hunkies" under Count Tilly and Wal-lenstein, of those fighters who threw the Duke of Alva, inquisitor-general, out of the Netherlands, and served under the Prince of Orange when he defeated the Irish at the battle of the Boyne. Milwaukee Klansmen, as Klansmen everywhere, are descend-ants of the Vikings who discovered our shores, of the Pilgrims who founded America, of the French Huguenots who settled in the Carolinas coming here to escape the hate of inquisitorial decrees, of the Orangemen who defend liberty and defy tyrany without fear, of the revolu-tionary fathers who freed the colonies from tyrannical rule, and of the sterling men and women who mi-grated to our shores in the fifties and sixties and helped to build America. Milwaukee Klansmen are descendants of the Protestant peoples of Norway, Sweden, Denmark, Germany, England, Holland, Scotland, and North Ireland. If these, L. E. A cauliflowereared, alien-born illiterate a Jewish mextal defective, or a half-brute foreign immigrant who can scarcely speak English, will appear in public for forty-five minutes for twentyfive thousand dollars or a percentage of the gate receipts that will amount to more. For what? That the lowace which will spoil boxing graft, cannot be on the grounds of prize state, the refuse of a nation, may enstate, the refuse of a nation, may enjoy imitation of the Coliseum in Rome any time during the most decadent days of the Empire. Stripped of all its grand pretense, the "box-ing" game is nothing but the sight of one man trying to smash another into unconsciousness and being paid to do it by a mob of howling sadists, who, being cowards themselves, are the first to detect the symptoms of faint-heartedness in the fighters, and the loudest to yell their discov-

Dr. Bible was telling us this afternoon about the Far East, and the price it is paying for its introduction into the industries. for its introduction into the indus-trial fellowship of the modern world. of Christ, you and I believe in the possibility of such a kingdom, in an before the world. I do not say that was in Shanghai 30 years ago, before these great cotton factories had Lord able and alone able to meet the been built. I have seen them grow, need of the whole world. A dear old tio nmust be Christian because the year by year, until you can shut your Quaker sent me some time ago a nation lies under the la wof God and eyes now in the streets along those little bit of John Oxenham's verse: is an institution of Go das surely as rows of cotton mills, and think you are hearing the thunder of American industry in Lowell or Lawrence or Fall River. I have seen children busy before the looms, feeding their lives into the spindles, little boys and girls, 8, 9, and 10 years old, working 12 to 14 hours shifts in the cotton factories and in the super-heated air of the silk mills. In Christendom many great forces flowing from Christ have steadily ameliorated the lot of mankind, but still in East and West alike man is suffering for man, human gain costing human loss and pain. As much as ever we have to mourn our inhumanity to ourselves.

And once again, this need, more obvious and ominous than in any other day, springs out of the simple and plain fact of human sin, not something misty, nebulous, indefinable but the most real and practical thing in the world, want of conformity to and transgression of the plain law of God, with regard to man himself, and man's relationship to man, and the relationship of race to race, and of nation to nation. Again I say that as we look out over our modern world, we see its deep need more obvious and ominous than ever.

And here as we gather in this con-

beside this generalization another generalization to cover it. We hold he assured conviction that Jesus Christ alone, is competent to deal with all the need of the world. We are not concerned here because outside the Christian church there are meet human need. Our concern is lest there should be any unbelief in Lord. I was reading, on my journey here, an article in a paper edited by an old friend, in which the writer said that the efforts of governments to end war were contrary to the will of God, that it is not the duty of nations to try to drive war out of the world, an dso the bring into the world the warless day. I know what he was thinking of. Hewas thinking that war will never be done away with among men until our Lord comes back again. I myself believe, and I re-joice to bear my testimony, in the literal personal return of our Lord lesus Christ to this earth again, and every day I pray and watch for his return. But I believe that our Lord would rather come back to a world from which war had been driven out, where there was no longer the passion of unbrotherly inter-racial hate. where men did not exploit little children and sacrifice the coming genday. I do not read my Gospel otherwise than that Jesus Christ set this them if it were a vain repitition of

If these two things of which have been speaking are true, is not Christ's efficiency for the world's have been speaking are true, is not need inside the bounds of those who professedly call Him their Master and ever else may concern our lives, one supreme duty must control them, the duty of bearing Christ out to meet the needs of our present world? I know that other ideals than this are finding their way again across the thought of our nation. I could quote for you, if it were prudent to do so, four great speeches made within the last two weeks by four of the most conspicuous personalities o fthis nation, in every one of which the ideal of unselfish duty is ignored, and the idea of self-interest set up in its place. We are counseled that our policy must not be controlled by abtractions and vague ideals but by the interest of our economic life. well, there will come a day when it will be discovered that those who subordinate duty to interest sacrificed both duty and interest alike. "America may scrap her battleships," wrote Dr. Reischauer from Tokio, "for she will not need them in the matter of her relationimpact by which we affect directly the other nations of the world should be Christian, that every man who goes out to represent this nation in any political capacity in any non-Christian nation should go in the conbehave as a Christian man. fairness and equity and justice.

But beyond these things, God is calling us today with a plainer and more unmistakable voice than ever Jesus Christ to the whole generation of which we are a part. Never was the door so wide open for that preaching. Miss Hodge was speaking this afternoon of one field. I think it must have been Colomia, with an area greater than that of Germany, France and Belgium, and with a smaller missionary force than you could find in any Presbytery in the Synod of Ohio, and five or six million of friendly folk, willing to welcome any friendly help. I have traveled up and down the Magdalena and seen he hundreds of places where no one Protestant or Catholic, is witnessing to the Gospel. And I was thinking of astill wider area than this, unreached and waiting. I rode last winter, a year ago, as far as from Cleveland to New York, in an old wagon across the plains of Northeast Persia. We went from village to village, and from cit yto city, and in that long stretch of between 600 and 700 miles, there was not a single representative of Christ making His Gos-pel known to those people for whom, with us, He lived and died. We walked to and fro in the streets of the sacred city of Meshed, and saw the folks gathered from all over western central Asia, all that western slope of the roof of the world passing through the streets of that old sacred Persian city and you could draw a radius, not of 600 miles, it iour and not the loser of the world. I know that He was lifted up, not to repel men from Him, but to draw all men unto Himself. And I know the prayer which He taught His disciples, which He naver would have to be 1000 miles north, and 200 miles eastward, and all the long journey southward to the waters of the Persian gulf, and you would have an area half the size of the United States, and not one single Missionary in all that great area except the little band of our people in the city of Meshed. I was thinking

life. I read the other day an address by Mr. F. W. Stevens, the representa-tive in Peking of the American Bankers who are grouped with the bank-ers of the other great nations in the financial consortium that is controll-ing the foreign loans of China. You may have known of him as professor of la win the University of Michigan. Here is his impression, the judgment of a careful, competent and informed "I have come to believe that America's greatest contribution to China, greater than even America's political friendship, is the work of he American Christian missionaries. Moral regeneration must precede any great political and industrial im-provement. In all China there is not single organization on a scale of importance that aims at moral de-velopment, or that is calculated to bring it about, that is not traceable to the Christian missions. I have in-quired among all kinds of people from all parts of China for such an activity of non-Christian origin with-out finding one."

And in other lands than China. I read Dr. Fulton's letter this after-

noon regarding that newly opened door into the hearts of the people of Japan. My friends, it was an open door already. I cut out of a paper before the earthquake came with all its influence on the Japanese heart and mind, a statement of one of the ablest Christian men in Japan, and he was speaking of the great forces that are struggling for the mastery of Japan, the labor, the socialist, the communist movement, and the Christian movement was among them, and he said: "I believe the real regener ation of Japan depends entirely on the united forces of the Christians especially the Christians of Japan America, and Great Britain. If Chrismany feared he would do, he has selected the cabinet from all parties and ranks. Lord Parmoor, lord president of the council, is a member of the cabinet. Lord Parmoor was a power in London politics long before MacDonald was known, and fore MacDonald was known, and to his office many years' expenses to his office many years' expenses to his office many years' expenses to the sould be the statement with the words. "I do not ignore the importance of work in China. It is important, just as in any other part of the world, but China is an immense country. The work there is the work of centuries. Here in Japan we have a small but powerful nation, similar tians lose Japan, it will be an irre-mediable loss to Christendom." He closed his statement with these words: "I do not ignore the imporperience. It is expected he will re-flect much credit upon Labor's ad-ministration of British national af-nation. She will be converted in half a century if we are fully prepared to meet her need. If we understood the need in Japan, we would not hesin America by making sure through itate to advocate a four-fold increase of missionary forces, forces sufficient to make short work of the evangeli-zation of Japan. Japan as a con-verted nation would herself become But I know of one little church that

on the Asiatic continent."

And I was thinking still further of another larger land in which there If we could reach that average in are deeper and more radical forces still, seething among the 3250,00,000 to \$60,000,000 for foreign missions in the Presbyterian church Mr. Gandhi himself is said to have charged the young men of India that are confronting, well, God be thanked he could give no better advice than that they follow Legs Christ if they call from the Hader who is summons and appeal such a large man and appeal su that they follow Jesus Christ, if they would make India great and free.
And the presidential address of C. R. Dass, the President of the last National Conference, circled around ward to deal with our present refour long quotations from the New Testament, and he upheld the exam-ple and teachings of Christ as warrant for the character of their policy in trying to win India's freedom. And yet we stand, and halt, and debate, as to whether or not, after all, we shall not have to turn our faces back. Two difficulties confront us. There is the burden of deficit and there is the dread of division. of division. I spoke about the deficit this afternoon. Let me say one word more. We are not passing through anything that is not common to many. I got a letter from a gentleman in Pittsburgh recently severely criticising us on several counts. ,He said lastly: "You will notice that the Foreign Boards of the other denominations are in no such straits as you are." I wrote back that I wished it were so, but that the rest were in a worse plight than we.
This week I asked Dr. North of the Methodist Board of their situation, ography. They came from all over and it was far worse than ours. Three years ago they had a deficit of \$3,000,000 and they are still carrying a

KLAN PARADE HELD AT MIAMI, FLORIDA

Estamate Crowd of 10,000 Spectators See Ceremonies at Night

MIAMI, FLA., March 10.—In the dates were initiated last night into the John B. Gordon Klan No. 24 of the Knights of the Ku Klux Klan at the municipal athletic field

Approximately 10,000 spectators looked on during the ceremony, and 1,500 Klansmen participated in the nitiation.

Preceding the initiation a parade of Klansmen formed promptly at 7:30, headed by policemen and Klansmen mounted on motorcycles, ollowed by a guard of Klansmen on horseback, who surrounded a motor car in which officials of the Klan ode. After this came the Klan patrol excellently drilled, which drew a great deal of applause from the spectators on each side of the line of march. After this came the motor-cade of 100 automobiles bearing nembers of the Klan.

Even before the crowd had gathered at the municipal athletic field, but not until the large amphitheater was crowded and the late arrivals were forming lines on both sides of the fields, two fire-lighted crosses suddenly appeared across the field, lighting up the scene and displaying One of the few states legislatures in the country which can boast of a

As the light of the cross died, a fourth, larger than the former ones, sprang into view and its red rays played on the scene during the entire ceremony.
The line of Klansmen acting

guards kept the crowd well back from the scene of the initiation so that none of the secret work could be observed. Only the white-robed figures as distinguished from the

candidates, who were in civilian dress, could be seen.
At the close of the initiation an address was delivered by Charles H. Ketchum of Key West, Grand Dra-gon for the state of Florida, who then introduced General Nathan Bedand pronounce a benediction. One came from the crowd of newly-initiated Klansmen, took his stand on the platform, pronounced a short benediction and the ceremony was

The community is strongly Catholic, and a few weeks ago the owner of he mortgage announced his intention of making a garage out of the church if the mortgage was unpaid. However, the various Klan and Women's organizations have made many substantial contributions to the cause. Announcement of gifts to the church by women at Peabody, Natoma and Madison was made this week.

Congregation Did Not Wish To Hear Truth of Great American Order

TELLS HIS ATTITUDE

Rev. C. Eldon Stuck Said to Be Open Advocate of the Organization

(Special Correspondence) GAYVILLE, S. D., March 8 .- Rev Eldon Stuck, pastor of the Methodist Episcopal church at Volin near here, last Sunday resigned his pastorate, when his congregation refused to hear his sermon entitled, "Who, What and Why the Klan?"

Saturday evening, March 1. Mr. Stuck was informed by the offihey would rather have him change the subject of his sermon for Sunday evening. This he refused to do. The evening service at the Violin church was then called off.

Special Session Sunday afternoon a special session of the board was called, and was addressed by Rev. Mr. Stuck. He declared that he did not desire to erve a congregation which was not willing to listen to the truth about a reat Protestant movement like the nights of the Ku Klux Klan. He thereupon tendered his resignation as pastor of the Volin charge which he held jointly with the church at

Gayville. Rev. Mr. Stuck has served the Voall that time been a champion of the cause of the Klan. He has from time to time made talks on the organization before the members of his congregation. He has urged the people of South Dakota to affiliate with the order which stood for real Americanism and militant Protes tantism.

Klan ls Christian The Klan stands for the same te-

nets of the Christian religion as do the Prostestant church the preacher declared. There is no reason, then, why a church congregation should not be willing to listen to an open and unbiased discussion of the Klan,

In a letter to The Iowa Fiery Cross, in which Rev. Mr. Stuck discussed the situation in Violin, he wrote:

"The paper that will come out and speak the truth is the one thing that we need mightily in every town, vil-lage and hamlet and until that time comes we are dependent upon pages-like yours, to keep the uninitiated informed. Keep up the good work and I am sure that the time will come when truth and right will tri umph over all the evil that we find in our search for truth."

Cincinnati Church Is Holding Revival
